

# TAKE YOUR BOWLING TO THE NEXT LEVEL.

IMPEL® developed Green Bowling from the ground up, to create a new bowling experience and offer the most fun way for scoring many strikes. With the most advanced technologies, it integrates many hardware and software innovations that would have been barely imaginable only a few years ago.

**RGB LED system** synced on pins, along the lanes and on the players terminal. The incredible colorful light show is interactive and animated according to each play, dazzling players and creating the WOW effect. Besides, the lanes shine under black light with the amazing light flowing light effects.

**Super 50" HD LCD screens** displaying information about each shot in the most modern way. Players can choose their own avatars in the beginning of the game. The avatars with animated backgrounds provide the most fun gaming experience, reacting according to the game actions. The screens are included inside the masking panel, so there's no need to build any extra overhead structure.

**Touchscreen Terminal:** Slim design, 19" LCD, QR code or Smartcard Reader. Through simple touches on the screen, players access all lane control functions.

**Bowling Cash Terminal:** Prepared to connect to the payment system of your choice, can be operated by coins, tokens or smartcard. Optional Redemption.

BowlingNet is the new Impel® automatic scoring system, designed to provide an innovative experience for hours of fun without stopping. **BowlingNet User** includes team mode options, automatic ranking (men, women and kids), multi-language system, a virtual waiter where players can order the best food and drink offerings directly from the lanes, and the **NEW smartphone interface!** Now guests can connect their own smartphones to the game, access many options, view the game score, order from the menu and share their score on social networks.

**BowlingNet Central** offers maximum control over the lanes operation, with customizable options.

**BowlingNet Manager** provides an overview of all the business intelligence reports on the bowling.

- ✔ Precision bumper system, activated individually by each player, or by the central, allowing children and new players to have a chance to get the ball to avoid the gutters.
- ✔ Internationally recognized official standards.
- ✔ Furniture designed to create a stylish environment with a lot of comfort for your customers. Tables are designed with built-in USB-charging station to conveniently help guests charge their phones.
- ✔ Eco-friendly sustainable and recyclable materials.

## FLEXIBLE SIZE TO FIT YOUR FACILITIES

| Unit                                     | Width | Length |
|------------------------------------------|-------|--------|

| Bowling Cash (10' x 10' x 10' x 10')     | 10'0" | 10'0"  |
| Bowling Cash (10' x 10' x 10' x 10')     | 10'0" | 10'0"  |
| Bowling Cash (10' x 10' x 10' x 10')     | 10'0" | 10'0"  |
| Bowling Cash (10' x 10' x 10' x 10')     | 10'0" | 10'0"  |

WE CAN INSTALL 1-1 LANES WHERE PREVIOUSLY IT WAS POSSIBLE TO INSTALL ONLY 1-0 LANES!

## WHY INVEST IN BOWLING?

- **High profits in small spaces:** Bowling is a profitable industry with high returns of investment. Units are quick payback with the enthusiasm of promoting fun.
- **Guaranteed active impact for a variety of entertainment applications:** Family fun, happy hours, birthdays, parties, events and social venues.
- **Fun for all ages!** Bowling is a healthy physical activity, promotes fun, well-being, friendship, team spirit and reduces stress. Easy to learn, it's perfect for enjoying incredible moments with family and friends.
- **Proven attraction worldwide:** Bowling will become a new must-have for your business, improving your profitability, traffic flow, and food & beverage sales (if applicable).
- **Bowling is a solid investment:** The operation provides stable revenue levels, with cash flow throughout the year.
